# RUGGED EARBUDS

## TRUE WIRELESS EARBUDS

### SPECIFICATIONS:

- IPX Level: 4  
(Earbuds only, do not expose the case to water.)
- Input Power: 5V=1A
- Charging Time: Up to 3 Hours
- Charging Interface: USB Type-C
- Case Capacity: 200mAh
- Earbuds Capacity: 30mAh
- Playing Time: Up to 3 hrs/charge  
(Dependent on volume level)
- Total Play Time: 15 Hours
- Standby Time: Up to 168 Hours
- Transmission Range: Up to 33 feet

### Product Diagram

### Charging the Earbuds

Make sure the case is charged. Place the earbuds in the correct ports in the case. They will automatically begin charging. The earbud LED indicators will be solid RED while charging, and will turn solid WHITE, then turn OFF when fully charged. On low power, a tone will be heard from the earbuds, indicating charging is required.

### Charging the Case

Plug the small connector of the included USB charging cable into the charging port at the back of the case. Plug the large connector into a USB power source such as the USB port on a computer, or a 5V USB wall adapter (not included). The charging case's charging indicator will blink BLUE while charging. The charging indicator will be solid BLUE when the case is fully charged.

### Powering ON/OFF

- The earbuds will automatically power ON when removed from the case. The earbud LED indicators will flash WHITE, then start charging when the earbuds are placed into the case.
- The earbuds can also be powered ON/OFF by pressing and holding (appx. 3s) the Multi-buttons.
- When powered ON, the earbuds will automatically pair with one another. Once paired with a device, the earbuds will automatically re-pair with that device, so long as the device is within connection range (33 ft.) and Bluetooth is enabled.
- The earbuds will automatically power OFF if they have not paired to a Bluetooth device after 5 min.

### Wireless Pairing

1. The earbuds will automatically power ON when removed from the case. Both of their LED indicators will flash WHITE.
2. After a moment, a tone will be heard on the earbuds indicating that they have paired to each other. The LED indicator on the secondary earbud will flash WHITE, and the LED indicator on the primary earbud will flash WHITE quickly.
3. Set your mobile device to search for Bluetooth devices. When **BY-BE-166** appears, select from the list of found devices.
4. Once successfully paired, a tone will be heard, and the LED indicator will flash WHITE for 5 seconds.

### Controlling Audio

Playback will be controlled from your paired device, or the controls listed below.

- 2x Press either Multifunction button to pause playback. Press again to resume.
- 1x press the RIGHT Multifunction button to increase the volume.
- 1x press the LEFT Multifunction button to decrease the volume.
- Press and hold (appx. 1s) the RIGHT Multifunction button to skip to the next track.
- Press and hold (appx. 1s) the LEFT Multifunction button to skip to the previous track.

### Phone Calls

When paired to a phone via Bluetooth, you can control phone functions using the controls listed on the next page.

- 1x Press either Multifunction button to answer an incoming phone call.
- 2x Press either Multifunction button to hang up.
- Press+ hold (appx. 1.5s) either Multifunction button to reject an incoming phone call.

### Activating Voice Assistant

- Press+ hold (appx. 2s) either Multifunction button to activate your device's voice assistant.

### WARNING:

- Do not use this unit for anything other than its intended use.
- Keep the unit away from heat source, direct sunlight, humidity, water or any other liquid.
- Do not expose the device to extremely high or low temperatures, as it may damage the battery.
- Do not operate the unit if it has been wet or moist to prevent against electric shock and/or injury to yourself and damage to the unit.
- Do not use the unit if it has been dropped or damaged in any way.
- Repairs to electrical equipment should only be performed by a qualified electrician. Improper repairs may place the user at serious risk.
- Keep the unit out of reach of children, this product is not a toy.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Any changes or modifications not expressly approved could void the user's authority to operate the equipment.
