Question #8: There is no operational description provided in your 6/11/2002 e-mail. Please include the following information in your operational description:

1. Technical description to show this device comply with section 2.1 of FCC rules as frequency hopping spread spectrum device.
2. Describe how the hopping sequence is generated. Provided an example of the hopping sequence channels.
3. Describe how each individual EUT meets the requirement that each of its hopping channels is used equally on average.
4. Describe how the associated receiver complies with the requirement that its bandwidth matches the bandwidth of the transmitted signal.
5. Describe how the associated receiver has the ability to shift frequencies in synchronization with the transmitted signals.

ANS #8 I believe the attached documents IF-5P7 Operational.doc and Explanation of Hopping.doc will answer these questions.

Question #9: Please provide spectrum plots to demonstrate this device has at least 75 hopping frequencies.

ANS#9 Refer to attached document hopping channels.doc, showing 79 hopping channels for the product

Question #10: Please provide EUT external photos

ANS#10 Please refer to attached photos External Pix LKT-IF-57.doc

Question #11: Please provide proposed FCC ID label format and location.

ANS#11 Please refer to attached document LKT-IF-57 FCC Label

Best Regards

Mike Kuo / TCB Certifier

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
