

Package info

- | | |
|---|--------|
| 1, wireless mouse | 1PCS _ |
| 2. Micro Receiver | 1 PCS |
| 3, instruction manual and warranty card | 1PCS _ |

System

1. Operating system
windows XP /X64/ vista / vista 64/ WIN 7/ WIN 7 64/ WIN 8/ WIN 10/ Mac
2. Interface free usb (2.0/3.0)

Product

- 1, using 2.4G wireless frequency hopping technology, super anti-interference ability
2. When the receiver is powered off, the mouse power will be automatically turned off
- 3, Built-in memory, no need for code, intelligent connection
4. Nano receiver plug and play, easy to carry

Technical info

- | | |
|---------------------------------|----------------------------|
| 1, working frequency: | 2.402-2.480 GHz |
| 2. Number of working channels : | 16 (automatic frequency) |
| 3, Wireless launch angle : | 360 |
| 4. Effective working distance : | 8-10 m |
| 5, receiver operating voltage | 5V |
| 6, receiver operating current | 30 mA |
| 7. Receiver size : | 18.5*14*6 MM±0.5mm |

Operation

1. Product use and installation steps

- 1, Take out the receiver from the mouse and plug it into the computer USB

2. The system will automatically install the driver (Figure 1)

- 3, if appear (figure 2) A hint that indicates the mouse receiver

successfully installed

4. Take out the mouse and open the battery cover according to the mark on the bottom of the mouse

- 5, According to the positive and negative polarity marks of the mouse battery compartment, insert a AA battery

(Please pay attention to the polarity of the battery, reverse installation may damage the mouse)

- 6, at this time the bottom light of the mouse is on, indicating that the mouse can be used normally

(Otherwise check whether the polarity of the battery is installed correctly, and reinstall)

7. Close the battery cover, you can use your wireless mouse

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
