

Label Location Justification Letter

Date: 30 October 2024

FCC ID: MCQ-CC93

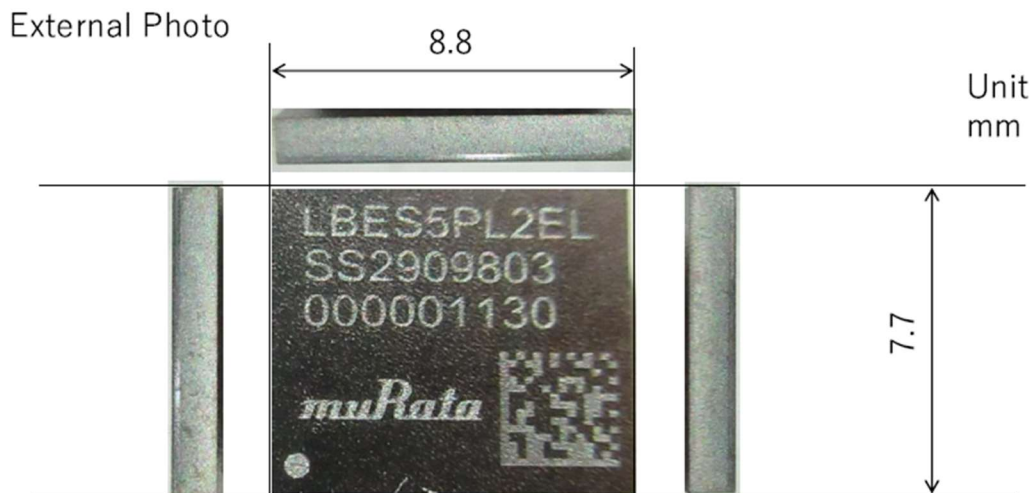

IC: 1846A-CC93

Product Name: LBES5PL2EL, LBEE5PL2DL

Model (HVIN): LBES5PL2EL-SANT, LBES5PL2EL-DANT, LBEE5PL2DL-SANT, LBEE5PL2DL-DANT

Since the module is too small to put the required FCC ID and ISED certification information with a minimum 4-point font size, this information will be placed in the user manual and packaging of the device.

The module size is 8.8*7.7mm and thus there is not enough space to put the required FCC ID and ISED certification number directly on the device.

Sincerely,

A handwritten signature in black ink, appearing to read "Dan Kobylarz".

Dan Kobylarz
