Slide the spring pin and hold it to remove a strap from the watch or attach a strap to the watch.

Parameters

Model : DW2122
Ingress protection level : IP68
Input rating : 5V=0.5A
Sensor : 3-axis acceleration sensor, HRM and SpO2 sensor

Sync mode : Bluetooth BLE 5.1
Operating frequency : 2400 ~ 2483.5MHZ
Communication distance : ≤10m
Bluetooth transmit power : ≤7.5dBm
Resolution : 200*320 pixels
Display : 1.57 inch TFT
Battery capacity : 200mAh/3.87V
Operating temperature : 0°C ~ 45°C

Note

Please read the instructions before use:

1. The company reserves the right to modify the content of this notice without notice. According to normal circumstances, some functions are different in specific software versions.
2. The product should be charged for more than 2 hours before use, but avoid prolonged charging in an unmanned environment.
3. Please use a charger of 5V/1A or 5V/2A along with the original charging cable from DIZO.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help important announcement.

Important Note:

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC ID: 2AYPPDW2122

Declaration of Conformity

Hereby, Realfit (Shenzhen) Intelligent Technology Co., Ltd., declares that this device is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://www.dizo.net/eu-compliance.html>

SAR : RF exposure information: The EIRP power of the device at maximal case is below the exempt condition, 20mW specified in EN 62479:2010.

RF exposure assessment has been performed to prove that this unit will not generate the harmful EM emission above the reference level as specified in EC Council Recommendation(1999/519/EC).

Disposal and Recycling Information

This symbol (with or without a solid bar) on the device, batteries (included), and / or the packaging, indicates that the device and its electrical accessories (for example, a headset, adapter or cable) and batteries should not be disposed of as household garbage.

Battery warning

The built-in lithium battery of the product is forbidden to be disassembled, impacted, extruded or put into fire. The battery under the very low air pressure may result in explosion or flammable liquid or gas leakage. Avoid the battery in a high-temperature environment or being exposed to strong sunlight to avert explosion. Don't use the battery continuously in case of serious ballooning. The battery shall be handled pursuant to the local regulations and shall not be disposed as household garbage. Don't try to repair, remove or refit the battery. The explosion may happen if the battery is replaced by the one subject to incorrect model. Don't compress or puncture the battery with hard object. The battery leakage, overheating or outbreak of a fire may occur if the battery is destroyed.

Warranty
