Tips:

1. Before measurement, please make sure that you have entered and saved correct personal information, such as height, age, gender, weight, etc., in the APP, and synchronize the bracelet.
2. Sit quietly for 5-10 minutes before measurement to keep the heart rate calm and breathing stable.
3. Please keep relaxed during measurement, for example, asthma, talking and walking after exercise will affect the accuracy of measurement results.
4. Keep the right sitting posture, keep your hands flat and at the same level with your heart.
5. Regularly clean your wrist and the smart bracelet/smart watch you wear, especially after exercise, sweating, or skin contact with soap or detergent and other substances, which may stick to the inside of the product, and should be cleaned regularly.
6. If you use the heart rate bracelet to record the heart rate of the whole day, the bracelet should be placed flat on a finger width above the ulna. In order to better view the data during more active exercise, the bracelet should be worn at a position about 2-3 finger width above the ulna.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
