Please read this user manual carefully and use the device only as directed. RENPHO accepts no responsibility for any cause of injuries due to misuse or negligence to follow the instructions out need. Please keep this manual for future reference.

## IMPORTANT SAFETY INSTRUCTIONS

**READ ALL INSTRUCTIONS CAREFULLY BEFORE USING.**

When using this device, the following basic precautions should be always followed:

Please consult your doctor if you are any of the following persons:

- Persons who had undergone eye surgery or eye conditions such as glaucoma, cataract and retinal detachment
- Elderly
- Pregnant or postpartum women
- Persons allergic to leather material
- Persons with skin infections, sensitivity, redness and/or burns on the skin
- Persons with any swelling or wound around the eye areas
- Persons with a heart condition, malignant tumors, or other serious health conditions
- Persons being treated due to medical condition
- Persons with high or abnormal blood pressure

If you feel any discomfort, please stop using the device immediately.

1. The device is intended for household use only and not for medical use.
2. This device can be used by children aged 8 and above and by persons with reduced physical, sensory or cognitive capabilities or lack of experience and knowledge only if they have been given supervision or instructions concerning the use of the device in a safe way and understood the hazards.

involved.

3. Children should not play with the device. Cleaning and maintenance should not be made by children.
4. Remove contact lenses, glasses, false eyelashes, hairpins, hair accessories, etc. before using the device.

**DANGER** - To reduce the risk of electric shock:

1. Always unplug the device from the electric outlet after charging and prior to using, cleaning or storing.
2. Never use pins or other metallic fasteners with this device.
3. The device is not waterproof. Keep away from liquids. Do not immerse in water.

**WARNING** - To reduce the risk of fire, electric shock, or injury to persons:

1. Close supervision is necessary when this device is used by, or, or near children, invalid, or disabled persons.
2. Do not use the device while driving or walking.
3. Do not operate under a blanket or pillow. Excessive heating can occur and cause fire, electric shock, or injury to persons.
4. Do not use the device with wet hands.
5. Never operate this device if it is not working properly, has been damaged, or dropped into water. Do not attempt to disassemble or repair the device. Return it to the service center for examination and repair.
6. Do not expose the device to direct sunlight. Keep the device away from humidity, heat, corrosive gas, and flammables.
7. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
8. Only use the charger (DC 5V 1A, not included) to recharge the device.
9. Avoid contact with sharp objects.
10. The device has a heated surface. Persons insensitive to heat must be careful when using this device.

11. Use heated surfaces carefully. May cause serious burns. Do not use over insensitive skin areas or in the presence of poor circulation. The unattended use of heat by children or incapacitated persons may be dangerous.
12. Temperatures sufficient to cause burns may occur regardless of the control setting. Do not use on an infant or invalid or on a sleeping or unconscious person. Do not use on insensitive skin or on a person with poor blood circulation. Check where skin is in contact with the heated area of the device frequently to remove the risk of blistering.

## ABOUT THE PRODUCT

### 1. What's in the Box

- 1 × Smart Eye Massager
- 1 × Type-C Charging Cable
- 1 × Quick Guide
- 1 × User Manual

### 2. Specifications

- Product Name: Smart Eye Massager
- Model: HE-EM005
- Input: 5V = 1A
- Rated Power: 5W
- Battery Capacity: 1500mAh
- Battery Voltage: DC 3.7V
- Charging Time: about 3.5 hours
- Working Time: 30-240mins

## USING THE PRODUCT

### 1. Charging

- Fully charge the device before the first use. Charge the device using the provided Type-C charging cable and a DC 5V 1A charger (not included).
- It takes about 3.5 hours to fully charge the device. The power indicator flashes red slowly while charging. Once charging is complete, the indicator will turn solid red.

**Note:** The device CANNOT be turned on while charging.

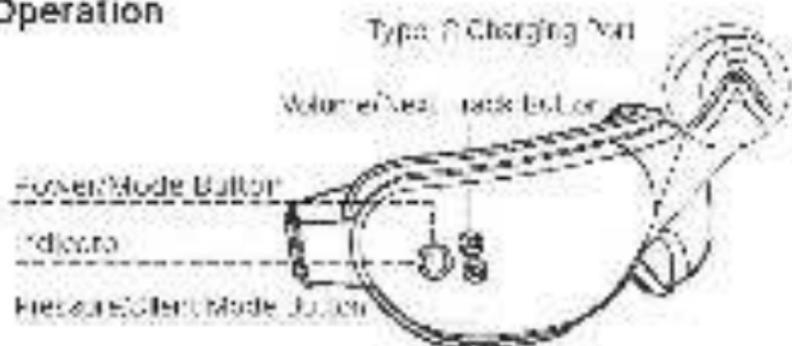

### 2. Wearing

- Remove any eye accessories (e.g., eyeglasses, contact lenses, false eyelashes, etc.) that may hinder you from using the device.
- Wear the device and ensure it fits your eyes properly. Adjust the elastic band to fit your head.

**Note:** Your vision may become blurry for a while, as expected after using the device. It is recommended to close your eyes for a few minutes until your vision goes back to normal.

### 3. Operation

- 1** a. Long press to turn on/off the device:  
Once the device is turned on, the power indicator will be solid white and the default setting is Air Pressure Level: soft, Heat: on, Volume: level: 5, Voice: 2 and on, Bluetooth: on.
- b. Short press to cycle through 5 modes:  
M1: Air Pressure + Heat + Music  
M2: Air Pressure + Heat + Vibration + Music  
M3: Air Pressure + Music  
M4: Heat Only  
M5: Vibration + Music
- 2** a. Short press to cycle through soft pressure (Default)/strong pressure/no pressure.  
b. Long press to switch between silent mode and voice mode. Once silent mode is activated, the voice broadcast and call-to-music will be disabled. The music from your phone or Herpho Health App will be paused but can be resumed via your phone or App.
- 3** a. Short press to cycle the music volume through Level 0/Level 1/Level 2/Level 3 (Default)/Level 4/Level 5 (Max.)  
b. Long press to enter the next track when the device is playing music from your phone or Herpho Health App.  
Note: The volume of the voice broadcast is cannot be adjusted.

#### 4. Wireless Music Connection

- Turn on the device (the power indicator is solid white) and enable Bluetooth on your smartphone.
- Search for "RF-EM001S Music" and connect it. Once pairing is successful, the power indicator will flash blue slowly.
- Control the music playlist and volume from your smartphone.

##### Note:

- "RF-EM001S Music" is for wireless music connection and "RF-EM001S" is for App connection. The device supports simultaneous connection to wireless music and App.
- Once paired successfully, the device will be automatically connected to Bluetooth every time it is turned on.

#### Indicator Description

Status	Indicator
Device is on	Turns solid white
Successful wireless music connection/App connection	- Asks blue slowly
Successful wireless music connection and App connection	Turns solid blue
Low battery/charging	- Asks red slowly
Fully charged	Turns solid red
Charging at a voltage higher than 5V	Keeps flashing red quickly for 1min and then goes out, indicating an impulse charger is used.

## 5. Auto-off Timer

The device will automatically shut off after 15 minutes of continuous use unless you select another timer via the App.

## 6. Memory Function

- Except in DIY mode, the device will recall the last selected mode and pressure level once turned on again.
- Except in DIY mode, the device will recall the last selected pressure level and music volume while switching modes.

# APP INSTRUCTIONS

## Step 1: Download the App

Scan the QR code below or search for "Renpho Health" from the Apple App Store or Google Play to download the Renpho Health App.

Renpho Health

Renpho Health

Available on the  
App Store

GET IT ON  
Google Play

**Note:** Due to continuous updates and improvements, the "Renpho Health" App may appear slightly different.

## Step 2: Log in/Sign up

- Log in directly with an existing RENPHO App account.
- If you don't have any RENPHO App account, tap **"Sign up"**. Register a new account for Renpho Health App using your email address and complete your profile information.

## Step 3: Add Device

Before adding the device, enable Bluetooth on your smartphone (Android System also requires location access) and turn on the eye massager.

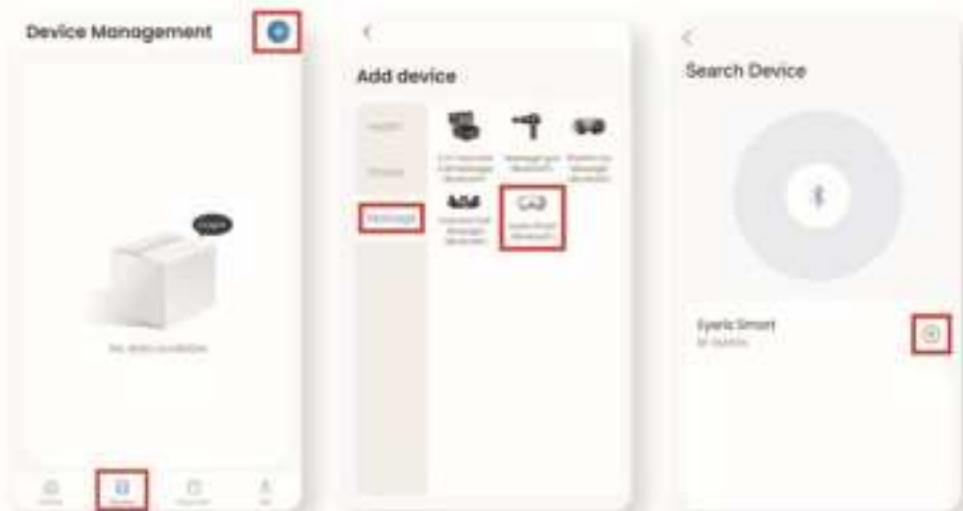

### -Method 1

Open the App, and a window will pop up and tap **"Connect"**.

## -Method 2

- Tap "+" on the top right corner of the "Device" page to pair manually.
- Select "Message" and tap "Eyeris Smart".
- A window will pop up and tap "+".

**Tip:** Once the device has started operating the mode set via the App, please do not touch any button on the device while wearing it to avoid changing the settings. Alternatively, you can lock the buttons via the App before wearing the device.

## Step 4: Settings

### 1. Standard Settings

On the **"Home"** page, you can check the timer, battery level, current mode, air pressure level, volume level, voice broadcast and wireless music connection or adjust them according to your preference.

## 2. DIY Settings

- Tap **"DIY"** and **"Add"**, and you can customize your massage session by choosing timer, air pressure level, massage mode, heat level, vibration and music.
- Enter the name and tap **"Save"** to finish your created mode. You can add up to 15 custom modes on your DIY list.

## Step 5: Meditate

Tap **"Meditation"** to enjoy some meditation videos and music and you can also add some of them to your likes.

## Step 6: Learn More

Tap **"Settings"** to learn more about meditation and FAQ and to choose the duration time of locking the buttons on the eye massager.

For more App instructions, please scan the QR code or enter the URL.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
