SUBJECT: Class II permissive change for FCC ID: YQD-GV300LAU

To Whom It May Concern:

Queclink Wireless Solutions Co., Ltd. respectfully requests a class II permissive change for YQD-GV300LAU original grant date 31/05/2021. There are no hardware or RF parameters software changes. Except below:

Change1: Changed a component named GD32F405RGT6 into STM32F405RGT6 which solely help process firmware commands, it will not affect the RF and radiation performance of the device. The device keeps the same appearance and function without wireless parameter changes, its component is pin-to-pin compatible, so please only retest the RSE& band edge.

Thank you for your attention to this matter.

Yours Sincerely.
