

Solder Board-Component View 16	 A photograph of a small green printed circuit board (PCB) component. The board is populated with various electronic components, including a central integrated circuit (IC), several resistors, capacitors, and a USB connector on the left side. The component is placed on a blue textured surface. A metal ruler is positioned vertically to the left of the component, showing a scale from 1 to 9 cm. Another metal ruler is positioned horizontally below the component, showing a scale from 1 to 10 cm. The component's length is approximately 4.5 cm and its width is approximately 1.5 cm.
Solder Board-Component View 17	 A photograph of a blue cylindrical battery component. The battery has a white label with Chinese and English text, including "Li-ion Battery", "270mAh", and "3.7V". Two wires, one red and one black, are connected to the positive and negative terminals of the battery. The component is placed on a blue textured surface. A metal ruler is positioned vertically to the left of the battery, showing a scale from 1 to 11 cm. Another metal ruler is positioned horizontally below the battery, showing a scale from 1 to 12 cm. The battery's length is approximately 6.5 cm and its diameter is approximately 1.5 cm.
