731 CONFIRMATION NO. EA691615

Dear Mr. Dayhoff:

Please accept my response to your Correspondence Reference Number 23841. Also, please accept my sincere apologies for causing you extra work on this project. I have detailed a reply for each of the items noted in your email.

Item 1 - Evidently, this exhibit became corrupted. Also, I noted from the test lab that the actual page numbering do not correspond to the actual exhibit. I am uploading a new exhibit, called "Portable SAR report pages 52 to 69.pdf". This should replace the existing Portable SAR report pages 54 to 73.

Item 2 - Noted

Item 3 - Evidently, this file became partially corrupted in that my "keep" file was showing this page as blank. Thank you for bringing this to my attention. A new file called "Resubmitted Graph 12 Base SAR report.pdf" should satisfy this matter.

Item 4 - I have submitted a letter from APREL Laboratories concerning this matter. This should be self-explanatory, but contact me if this is a problem.

Item 5 - There are two files (Recipe for handset SAR liquid.pdf & Recipe for base SAR liquid.pdf) which are contained in existing files. However, I believe that these will satisfy your concerns for this matter.

Thank you for your consideration in this matter. Please contact me if you have further questions or need any additional information.

Regards,
