4. Do not clean the product unless the unit is powered off.
5. It is recommended to use 18W or above adapter to charge 3 smart devices at the same time.

## ANSWER QUESTIONS

1. If you're experiencing interrupted or slow charging, check the following:
  - (1) The back of your phone should not have any metal, pop sockets, or credit cards,
  - (2) Put the phone in the center of the charging surface (this lets the charging coil in your phone line up with the one inside the wireless charger),
  - (3) The wireless charging coil on Sony phones is located slightly below center,
  - (4) Phone cases should be no thicker than 5 mm for effective charging,
  - (5) Check whether the adapter is QC3.0 fast charger.
2. If you're failing to charge your device, please try out the following:
  - (1) Please restart your cell phone and test with other USB cable,
  - (2) Please check whether the indicator turns on or not,
  - (3) Please check the Adapter is QC3.0 Quick Charge (Output:9V/2A) or not, iPhone original adapter does not match the wireless charger,
  - (4) Please check your Phone case thickness (<5mm), Metal ring or Magnetic Pad will not be available.
3. If you're using the recommended wireless charger with the PCP3.0 Adapter and have removed any potential charging obstructions, but are still experiencing issues, try this:
  - (1) Replacing the cable connecting your wireless charger,
  - (2) Rebooting your phone,
  - (3) Unplug the adapter and reinsert,

## AFTER-SALES SERVICE

If your problem has not been solved by following the above steps, please reach out to us via Amazon's message center or [info@waititee.com](mailto:info@waititee.com). In order to solve it for you faster, please have the following information at hand: your phone's model, the type of wall charger you are using, and the type of phone case you are using (with a link if possible). Optionally, you may include a video to illustrate the problem you are having.

UK CE FCC RoHS   Made in China

**FCC Statement**

This device complies with part 15 FCC Rules. Operation is Subject To the following two conditions:

(1) This device may not cause harmful interference, and (2) this devicemust accept any interference received, including interference that may cause undesired operation.

Changes or modifications not explicitly approved by the partyresponsible for compliance could void the user’s authority tooperate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to providereasonable protection against harmful interference in a residential installation. This equipment generates, uses and canradiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference toradio or television reception, which can be determined by turning the equipment off and on, the user is encouraged totry to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC radiation exposure**

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
