RE: Class II Permissive Change, FCC ID: SQGBL654

Date: January 13, 2021

To Whom it May Concern:

This letter grants authorization for representatives of Laird Connectivity to apply for a Class II Permissive Change as specified under 47 CFR FCC Part 2.1043 of the Code of Federal Regulations.

This authorization applies to Laird Connectivity's BL654 Module, FCC ID Number: SQGBL654, approved on June 29, 2018, has further modification of:

1. The addition of proprietary 802.15.4 radio test data, not included in the original application. 802.15.4 modulation is implemented via the 802.15.4 operating mode of the radio transceiver IC. The transceiver IC is capable of multiple different mutually modes of which 802.15.4 is one of the modes. No hardware changes were made to implement the 802.15.4 operation.

Sincerely,

A handwritten signature in black ink, appearing to read "Bill Steinike", with a stylized flourish at the end.
