Hi Mike,

Here are the answers.

Question #1: By reviewing the EUT photos and test setup photos, the photos contained in the Section 8 of Part 22/24 test report do not agree those photos in test setup photos and ext/int photos. Please explain the actual device tested during the Part 22/24 tests.  
<answer>Test report is revised.

Question #2: Proposed FCC ID label format mentioned that this device complies with Part 22 rule part only. Please note such statement is not required per FCC labeling requirements. However, any statement included must agree with product tested. This device is subject to Part 22 and 24 requirements.  
<answer>FCC Label is revised.

Question #3: Please remove Vacom translator photos from internal photos. This translator is testing accessories which is not part of EUT.  
<answer>Internal photos are revised.

Question #4: Based upon the description contains in the user manual, this phone can also be used as data modem by connecting to Personal computer and would be classified as PC peripheral device. Please provide the status of compliance in this portion. If FCC DoC portion is used, the FCC ID label format and user manual must also mentioned and comply with applicable section in FCC DoC procedures.  
<answer>User's manual and FCC label are revised.

Thanks,

Claire
