

## MPE REPORT

Report No.: SRTC2024-9004(F)-24022710(I)  
Product Name: 2.4G WIFI+Bluetooth dual-mode module  
Model Name: MHCWB5S-IB  
Applicant: Xiaomi Communications Co.,Ltd.  
Manufacturer: Xiaomi Communications Co.,Ltd.

|                         |
|-------------------------|
| Reference Specification |
| FCC Part §1.1310        |

The State Radio\_monitoring\_center Testing Center (SRTC)  
15th Building, No.30, Shixing Street, Shijingshan District,  
Beijing, P.R.China

Tel: 86-10-57996183 Fax: 86-10-57996388

## 1 GENERAL INFORMATION

### 1.1 Notes of the test report

The test report may only be reproduced or published in full. Reproduction or publication of extracts from the report requires the prior written permission of The State Radio\_monitoring\_center Testing Center (SRTC). The test results relate only to individual items of the samples which have been tested. The certification and accreditation identifiers used in this report shall not be applicable to the tested or calibrated samples thereof. The manufacturer shall not mark the tested samples or items (or a separate part of the item) with the identifiers of certification and accreditation to mislead relevant parties about the tested samples or items.

### 1.2 Information about the testing laboratory

|-----------------------------------------|------------|
| Date of Receipt of test sample at SRTC: | 2024-03-08 |
| Testing Start Date:                     | 2024-03-09 |
| Testing End Date:                       | 2024-03-22 |

|                     |                  |              |
|---------------------|------------------|--------------|
| Environmental Data: | Temperature (°C) | Humidity (%) |
| Ambient             | 25               | 40           |

|                                 |     |
|---------------------------------|-----|
| Normal Supply Voltage (V d.c.): | 3.3 |
|---------------------------------|-----|

## 2 DESCRIPTION OF THE DEVICE UNDER TEST

### 2.1 Final Equipment Build Status

#### BLE

|                    |                   |
|--------------------|-------------------|
| Frequency Range:   | 2.402GHz~2.480GHz |
| Number of Channel: | 40                |
| Modulation Type:   | GFSK              |
| Equipment Class:   | DTS               |
| Channel Spacing:   | 2MHz              |
| Data Rate:         | LE 1Mbps          |
| Power Supply:      | DC supply         |
| Antenna gain:      | 2.5dBi(max)       |
| Software Revision: | V1.0.1            |
| Hardware Revision: | V1.0              |
| SN:                | #1                |
| Antenna type:      | PCB Antenna       |

#### Wi-Fi 2.4G

|                              |                                      |
|------------------------------|--------------------------------------|
| Frequency Band:              | 2.412GHz~2.462GHz                    |
| Number of Channel For 20MHz: | 11                                   |
| Number of Channel For 40MHz: | 7                                    |
| Modulation Type:             | 802.11b<br>802.11g<br>802.11n (HT20) |
| Power Supply:                | DC supply                            |
| Antenna gain:                | 2.5dBi(max)                          |
| Software Revision:           | V1.0.1                               |
| Hardware Revision:           | V1.0                                 |
| SN:                          | #1                                   |
| Antenna type:                | PCB Antenna                          |

### **3 REFERENCE SPECIFICATION**

| Specification | Version | Title                                      |
|---------------|---------|--------------------------------------------|
| Part 1.1310   | Latest  | Radio frequency radiation exposure limits. |

### **4 RESULT SUMMARY**

| Case | Verdict |
|------|---------|
| MPE  | Pass    |

|                                                                                                                                        |                                                                                                                    |

## 5.CALCULATION RESULT

### 5.1 Maximum permissible exposure (MPE)

#### Limit:

(A) Limits for Occupational/Controlled Exposure ☐

| Frequency Range (MHz) | Electric Field Strength (E) (V/m) | Magnetic Field Strength (H) (A/m) | Power Density (S) (mW/cm <sup>2</sup> ) | Averaging Time  E  <sup>2</sup> ,  H  <sup>2</sup> or S (minutes) |
|-----------------------|-----------------------------------|-----------------------------------|-----------------------------------------|-------------------------------------------------------------------|
| 0.3-3.0               | 614                               | 1.63                              | *100                                    | 6                                                                 |
| 3.0-30                | 1842/f                            | 4.89/f                            | *900/f <sup>2</sup>                     | 6                                                                 |
| 30-300                | 61.4                              | 0.163                             | 1.0                                     | 6                                                                 |
| 300-1500              | --                                | --                                | f/300                                   | 6                                                                 |
| 1500-100,000          | --                                | --                                | 5                                       | 6                                                                 |

(B) Limits for General Population/Uncontrolled Exposure ☒

| Frequency Range (MHz) | Electric Field Strength (E) (V/m) | Magnetic Field Strength (H) (A/m) | Power Density (S) (mW/cm <sup>2</sup> ) | Averaging Time  E  <sup>2</sup> ,  H  <sup>2</sup> or S (minutes) |
|-----------------------|-----------------------------------|-----------------------------------|-----------------------------------------|-------------------------------------------------------------------|
| 0.3-1.34              | 614                               | 1.63                              | *100                                    | 30                                                                |
| 1.34-30               | 824/f                             | 2.19/f                            | *180/f <sup>2</sup>                     | 30                                                                |
| 30-300                | 27.5                              | 0.073                             | 0.2                                     | 30                                                                |
| 300-1500              | --                                | --                                | f/1500                                  | 30                                                                |
| 1500-100,000          | --                                | --                                | 1.0                                     | 30                                                                |

f = frequency in MHz \*Plane-wave equivalent power density

### Result:

According to §1.1310, systems operating under the provisions of this section shall be operated in a manner that ensures that the public is not exposed to radio frequency energy levels in excess of the Commission's guidelines.

The MPE was calculated at 20 cm to show compliance with the power density limit.

The following formula was used to calculate the Power Density:

The  $S = PG / (4\pi R^2)$

Where S = power density in mW/cm<sup>2</sup>

P = transmit power in mW

G = numeric gain of transmit antenna

R = distance (cm)

### Standalone Transmission Result

| Band      | Freq. (MHz) | Maximum Power (dBm) | ANT Gain (dBi) | Maximum EIRP (dBm) | Maximum EIRP(mW) | Power Density (mW/cm <sup>2</sup> ) | Power Density/ Limit |
|-----------|-------------|---------------------|----------------|--------------------|------------------|-------------------------------------|----------------------|
| BLE       | 2440        | 8.43                | 2.5            | 10.93              | 12.388           | 0.002                               | 0.002                |
| WIFI 2.4G | 2437        | 15.82               | 2.5            | 18.32              | 67.920           | 0.014                               | 0.014                |
