RE: Class II Permissive Change Letter

For Digital Channel Module **DCM AF 1937** **FCC ID: BCR-AF1937**

Certified under FCC Rule Part 24E / Equipment Class: Amplifier /

Granted on December 12, 2008 by Timco Engineering Inc.

To whom it may concern:

This authorization covers the Class II Permissive Change application for the following changes:

- No Hardware change
- No Software change

The device has been certified with the emission designator F3E, F1D, D7W for CDMA and W-CDMA and the C2PC is to add the emission designator **G7D** for LTE applications. This C2PC does not affect the FCC part 24E operation measured at the FCC approval in the past.

Best Regards / Mit freundlichen Grüßen
