DECLARATION OF SIMILARITY

Date: 2025-01-23

FEDERAL COMMUNICATIONS COMMISSION

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

Dear Sir or Madam:

We, Anker Innovations Limited, hereby declare that the product: eufy FamiLock E35, eufy FamiLock E34, FCC ID: 2AOKB-T85P1, model: T85P0 is electrically identical with the model: T85P1 which was tested by Bay Area Compliance Laboratories Corp. (Dongguan). The two models have the same schematics, working principle, functional structure, working voltage, product body material and Frequency Radio module (include Antenna).

The differences between these models and that are declared similar areas follows:

1. They have different product name and model name.

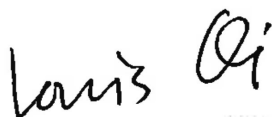

Product name	eufy FamiLock E35	eufy FamiLock E34
Model name	T85P1	T85P0

2. T85P0 locks by timing, and T85P1 senses the door status through sensor to determine whether it is locked.

3. T85P1 has IMU and geomagnetism, while T85P0 does not. The IMU is on the MB board, and the geomagnetism is on the WIFI board. Therefore, the MB board and the WIFI board each have two PCBA versions, and the rest of the boards T85P0 and T85P1 are the same.

Please contact me should there be need for any additional clarification or information.

Best Regards,
