

Internal Photos

Model: C36

Standard Voltage: 3.7V
Rechargeable Li-Polymer Battery: 3150mAh/119.3Wh
Charging Voltage Limit: 4.35V
Date of Production: 2023.07
Please refer to manual before using battery.

WARNING:

Do not use the battery in high temperature or low temperature environment.
Do not use the battery in high humidity environment.
Do not use the battery in high pressure environment.
Do not use the battery in high voltage environment.
Do not use the battery in high current environment.
Do not use the battery in high frequency environment.
Do not use the battery in high power environment.
Do not use the battery in high speed environment.
Do not use the battery in high acceleration environment.
Do not use the battery in high vibration environment.
Do not use the battery in high shock environment.
Do not use the battery in high impact environment.
Do not use the battery in high pressure environment.
Do not use the battery in high temperature environment.
Do not use the battery in high humidity environment.
Do not use the battery in high pressure environment.
Do not use the battery in high voltage environment.
Do not use the battery in high current environment.
Do not use the battery in high frequency environment.
Do not use the battery in high power environment.
Do not use the battery in high speed environment.
Do not use the battery in high acceleration environment.
Do not use the battery in high vibration environment.
Do not use the battery in high shock environment.
Do not use the battery in high impact environment.
