Accurately represent the test results under the new conditions when the identified radio module is integrated in the identified host equipment. By integration of the said radio module into the identified host equipment no changes were made to it or by external adaptation circuitry that impacts the validity of the results of the original module's test reports; hence conducted signal measurements in the above listed reports also apply to LMU4350LB, LMU4351LB. All radiated measurements were made to ensure compliance and we take full responsibility for the compliance of the final product, referenced by FCC ID: APV-4350LB and IC: 5843C-4350LB.
