RE: Savi Technology, Inc.

FCC ID: KL7-65XSP-V1

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The external photographs appear to show the 433 MHz antennas as well. Please provide updated photographs since this version does not contain this.
- 2) The internal photographs appear to show the 433 MHz antennas as well. Please provide updated photographs since this version does not contain this.
- 3) Revised sample labels do not show FCC ID. Please note that sample labels must display the proper FCC ID.
- 4) For the label placement exhibit, please provide only the necessary page(s) to show this. A 22 page documents was provided. Please revise.
- 5) Please adjust the Operational description to remove references to the 433 MHz option.
- 6) Please explain why the 433 MHz antennas appear in the test configuration photographs.
- 7) Page 5 of 60 mentions 15.231. Please explain.
- 8) Please explain what the spider antenna is referenced on page 8 of 60. Was this tested?
- 9) Please explain why the small loop is only listed for one of the 2 frequencies.
