**Overview**

This application is for the original approval of a radio module model ConnectCore6 (i.MX6), FCC ID: MCQ-CCIMX6. The radio is an 802.11 a/b/g/n compliant module. Although some of the exhibits refer to a Bluetooth operation supported by the module, the Bluetooth function is not covered under this application, and is not implemented for this ID number.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
