July 23, 2006

RE: First International Computer Inc.

FCC ID: EUNLM7WL

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) FYI.....In regards to power, it appears that you may be using Option 2, method 3 for the power measurement. Please note that if this is the case, then in the future if using any of Option 2 methods, section 7.5.1 should be tested with a 30 dB (compared to 20 dB) down limit.

Timothy R. Johnson  
Examining Engineer
