

Quick Start Guide

Lenovo

KEYBOARD

KB331U

- 1 Indicator light 2 Power switch 3 USB-C connector

ⓘ The keyboard layout may vary by country or region, please refer to the actual product.

SWITCHING BETWEEN MULTIPLE DEVICES

The keyboard is compatible with Android™, iOS®, and Windows®, and can connect to a maximum of three different devices.

Press  in the upper left corner to effortlessly switch between devices.

USING THE KEYBOARD

Connect via Bluetooth

- ① Turn on the power switch.
- ② Press and hold one of  for 3 seconds until the Bluetooth indicator starts flashing.
- ③ Add "Lenovo Wireless KB" from your device's Bluetooth settings.

 When first powered on, the keyboard automatically enters pairing mode.

Connect via a USB-C cable

Connect the keyboard to the device via a USB-C cable.

 When connected via a data cable, the keyboard can be used normally without turning it on, but the Bluetooth connection cannot be enabled at this time.

CHARGING THE KEYBOARD

Light status	Battery status
 White (solid on)	Fully charged
 Amber (solid on)	Charging

- Don't place heavy or sharp items on the keyboard to prevent potential damage.
- Don't use your device in temperatures below 0°C or above 40°C.
- Don't store or transport your device in temperatures below -20°C or above 60°C.
