- Select "EZ Mode" (Figure 12)
Click Next (Figure 13)
Enter the account and password that can connect to WiFi (Figure 14)

Matters Need Attention

**Try to keep away from the metal space ;
Avoid the furniture - microwave oven blocked:**

- Avoid the space where the audio, video and data lines are wound, and keep the space away from them as large as possible;
- Ensure that as close as possible to the coverage of wireless Wi-Fi signals. Switching network environment;

In the new network environment, please p

seconds, then connect to the network.

The name and content of the harmful substances in the product

	Harmful Substance

Part	Pb	Hg	Cd	Cu(NI)	PBB	PBDE
shell	○	○	○	○	○	○
Board	○	○	○	○	○	○
charger	○	○	○	○	○	○
antenn	○	○	○	○	○	○

This form is based on the provisions of SUT 1364.

This product conforms to RoHS environmental protection requirements. At present, there is no mature technology in the world to replace or reduce the lead content in the electronic ceramics, porcelain, optical glass, steel and copper alloy.

FCC SDoC

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Relocate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from which the receiver is connected.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can

radio police frequency group (see 17). If installed and used in accordance with the instructions, any harmful interference to radio communications should be avoided. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is advised to try the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

If these measures do not resolve the problem, the user should be advised to stop using the equipment. This equipment should not be used by anyone other than an authorized representative of the manufacturer who could send your authority to operate this equipment.

The device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
