

Dear Tim:

I've re-uploaded two new files to your website.

Regarding to comments No.1, 3and 4, I have corrected the Output Power to 20.5 dBm in the "users maunal-new", and added some compliance informations of manufacturer with the title "DECLARATION OF CONFORMITY" on the page 2 of the user's manual.

And about the comments No. 2, I've modified the wrong FCC ID to the correct one also.

Please check them again and thanks for your help.

Best Regards
