Wireless Earbuds User Manual

Please read the instructions carefully and keep them properly before using the product.

Before Function

1. Please pay attention to the external charging case, and the earbuds will automatically turn on the power and play. Alternatively, press and hold the touch button for 5 seconds to turn on the device.
2. Bluetooth: first, it is the charging equipment and it will automatically start to connect and play the touch button for 5 seconds to start play.
3. Play/Power: Click on the side of the earbuds, which will bring attention to play, playback, and will not play/charging status.
4. Answer/charging up status: Click on the side of the earbuds touch button to answer a call. To end the call, click on one of the earbuds touch status to hang up.
5. Repeat step 1. Press and hold the earbuds touch button for 2 seconds during charging state to reset the ear.
6. Previous usage: Click on the touch button when connected to the phone.
7. Next time: Double click the touch button when connected to the phone.
8. Volume up: Long press the light on for 1.5 seconds.
9. Volume reduction: Long press the light on for 1.5 seconds.

Pairing & Connection

How to turn on and pair the equipment?

1. Remove the earbuds from the charging case. At this point, the earbuds will automatically turn on the power and play. When the external indicator light flashes and the other earpiece light goes off, it indicates that the earpiece function successfully paired. Turn on the Bluetooth function on your phone, search for "Y80" and click connect.
2. Connect a charging case: press and hold the multifunction button on both earpieces for 5 seconds. When you hear the "turn on" prompt sound, and the earbuds indicator light flashes white, it indicates that the earbuds are turned on. After both earbuds are turned on, they will automatically pair. If one earpiece indicator light goes out, it indicates that the other earpiece has been successfully paired. Turn on the Bluetooth function on your phone, search for "Y80" and click connect.
3. After the equipment are paired by the system, they will automatically pair and automatically start play have already been connected when turned on a 5th time.

Charging Overview Earbud

Headphone indicator light
After the equipment uses the charging case, the magnetic contact surface should be placed correctly, and the earpiece will automatically enter the charging state when charging the earbuds. The white light is lit up on the earbuds are fully charged. The indicator light goes out.

Charging case indicator light
When charging the charging case, the status light flashes, and it goes on after being fully charged.

When charging the earbuds with the charging case, the status light is shown on the charging case.

Matters needing attention

Please use a charging case that is not damaged (if it is broken, and do not use a full charging case to avoid damaging the equipment).
