Request for Confidentiality

Date: 2017-9-7		
Subject: Confidentiality Request for: FCC ID: 2AJ5L-M0, IC: 22130-M0		
Pursuant to FCC 47 CRF 0.457(c subject FCC application be held		-100, Section 10, the applicant requests that a part of the
Short Term	iality Requested Permanent Permanent* Permanent Permanent Permanent Permanent Permanent Permanent Permanent and Permanent Permanent	Exhibit Block Diagrams External Photos Internal Photos Operation Description/Theory of Operation Parts List & Placement/BOM Tune-Up Procedure Schematics Test Setup Photos User's Manual
one of the first of its kind in indu the advantage they have achieved financial hardship.	stry. Having the subject	spent substantial effort in developing this product and it is information easily available to "competition" would negate duct. Not protecting the details of the design will result in
Permanent Confidentiality: The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.		
period of <u>(specify number of</u> Authorization and prior to marke or release of the product to the pu	days not to exceed 180) ting. This is to avoid prublic. Applicant is also at or the product is made	rt term confidential be withheld from public view for a 2 days from the date of the Grant of Equipment emature release of sensitive information prior to marketing aware that they are responsible to notify ACB in the event available to the public. ACB will then release the FCC Public Notice DA 04-1705.
	ntil such time that IC dis	tinguishes between Short Term and Permanent simply be marked Confidential when submitted to IC.
Sincerely,		
By:	/ Safety Engir	neer Jason Niu

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

² - Please refer to http://acbcert.com/documents/misc-docs/Memo-Short-Term-Vs-Standard-Confidentiality.pdf for complete details.
