Re: Frequency change - FCC ID: DYY2410

Codan Limited hereby request that the lower frequency applicable to our HF radio; the Sentry-H 6110-MP (Type 2410) be changed from 1.6MHz to 1.5MHz.

This change does not involve any hardware changes to the product; the existing platform design allows for this update to be applied through our licensing options available on the product.

Sincerely,

A handwritten signature in black ink, appearing to read 'BJ', with a long horizontal flourish extending to the right.

Bruce Johnson
Senior RF Design Engineer
