Subject: ? ? : Additional Information Needed AN04T3925 FCC ID: FKGE14A

Hi Chris,

Here are our replies to your questions.

1. The schematics appear only to be for the computer and do not cover the RF MiniPCI card. Please provide schematic diagrams for the RF transmitter.

Reply: The RF transmitter is attached.

2. The Operational Description provided is just a drawing. Please provide an operational description that meets the following FCC requirements:

2.1033(b)(4) A brief description of the circuit functions of the device along with a statement describing how the device operates. This statement should contain a description of the ground system and antenna, if any, used with the device.

Reply: A revised operational description is provided.

3. The Users Manual exhibit did not include any RF Exposure information for the user. Please see your previous FCC Certification documentation for FCC ID: FKGR15B for an example of an acceptable statement for this device.

Reply: The user manual is updated. Please refer to the attached.

I hope the above would conclude your review and receive your grant soon. Thank you.

Best Rgds,
 WK

Dear CCS:

I have reviewed the application for the device listed above. The following items must be corrected before the

6/5/2004

review can continue:

1. The schematics appear only to be for the computer and do not cover the RF MiniPCI card. Please provide schematic diagrams for the RF transmitter.
2. The Operational Description provided is just a drawing. Please provide an operational description that meets the following FCC requirements:
2.1033(b)(4) A brief description of the circuit functions of the device along with a statement describing how the device operates. This statement should contain a description of the ground system and antenna, if any, used with the device.
3. The Users Manual exhibit did not include any RF Exposure information for the user. Please see your previous FCC Certification documentation for FCC ID: FKGR15B for an example of an acceptable statement for this device.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
