Correspondence Reference No.: 26155
Request for Tech. Info.: 12/30/03

Dear Andy:

Submitted herewith, on behalf of **Uniden Corporation** is an amendment provided in response to the request for technical information dated December 30, 2003.

1. Please find attached the revised SAR cover page indicating the correct type of device.
2. Please find attached the revised page 7 of the SAR report with the corrected body tissue recipe.
3. The SAR testing was conducted with the new SPEAG probe which is less than 6 mm in diameter. Please find attached page 5 of the SAR report with the probe specifications.
4. Please find attached the revised uncertainty budget.
5. Please find attached the probe calibration.
6. The basis for the dipole target is from SPEAG and is included in the dipole validation data in the SAR test report.
7. Please find attached the print out of the SAR liquid dielectric test system.

We trust this information is sufficient to resolve FCC questions in this application. If you have any further questions, please do not hesitate to contact us.
