

Attestation Letter for Low Power Indoor Client Device

Date: 2023/10/08

FCC ID: 2AH25T3PRO

We, Shanghai Sunmi Technology Co.,Ltd., attest that this device under FCC ID: 2AH25T3PRO complies with device protocol requirements and operational restrictions: for indoor client 6XD.

b. The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.

c. This device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.

d. Transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.

e: The device is not for vehicular use, except large aircrafts above 10000 ft.

f: The enclosure is not weatherized for Subordinate and APs.

For any questions, please contact me at your convenience.

Sincerely,

Signature
