**DEKRA Testing and Certification, S.A.U.**

Parque Tecnológico de Andalucía  
C/ Severo Ochoa 2 & 6  
29590 Campanillas  
Málaga, España

**FCC ID: F5322IQPRO**

ISED certification number: **IC: 160A-IQPRO**

HVINs/Models: IQ Pro, IQ Pro P

**Family Certification request letter**

We hereby request Family Certification for the above mentioned HVINs/Models based on them being electrically, and physically identical apart from model name/number and the differences mentioned below:

1. Models IQ Pro and IQ Pro P are using the same motherboard PCB assembly/layout Rev. 0C and the only difference is that the model IQ Pro does not have populated the chip antennas while the model IQ Pro P does have these populated.
2. Model IQ Pro and IQ Pro P use the same RF circuitry for the Z-Wave interface with the same antenna type.
3. Model IQ Pro is housed in a metal enclosure with the antennas mounted on top and protected in a plastic dome.
4. Model IQ Pro P is housed in a plastic enclosure

The models IQ Pro and IQ Pro P using the metal and plastic enclosures as described above have been tested separately for each configuration .

Sincerely,

Signed
