

A detailed line drawing of a rugged electronic device chassis. The chassis is rectangular with rounded corners and features a central component mounted on a printed circuit board (PCB). The PCB is populated with various components, including two large rectangular modules on the left and right sides, and several smaller components along the top and bottom edges. The central component is labeled with the following information:

legrand®
Model: WNAL23
FCC ID: 2AU5D-ASWDM
IC: 25764-ASWDM
HVIN: WNAL23

The number **370651** is printed in the bottom right corner of the label area. The chassis has a thick, multi-layered border, suggesting a protective enclosure. There are several mounting points and connectors visible along the edges of the chassis.
