

WATCH GTR ULTRA

PRODUCT MANUAL

Precautions before use:

1. The company reserves the right to modify the contents of this manual without any notice. Some functions are different in specific software versions, which is normal.
2. Please charge the product for more than 2 hours before use.
3. Before using the product, please download and connect the APP on the mobile phone. Connect the APP to synchronize the watch time and set personal information. For details, see the instructions for the corresponding synchronization software.

1. Product Overview

It is recommended to use the mobile phone model version (two years) before use cause connection problems.

Android mobile phone: support operating system version 9.0 or above.

Apple mobile phone: support operating system version 13.0 and above.

APP Download and APP connection method
Note: For the QR code below to download the APP software.

Use the browser to scan the QR code below or download the QR code with the watch settings.

During the download and installation process, please pay attention to the corresponding APP name, and the APP icon.

After downloading the APP, click on the APP icon to start the software to ensure the normal Bluetooth connection.

The APP name is: Aolon.

Special attention:

1. If you have not used the APP for a long time (12 hours or more), the APP will be closed up by the phone's own iOS system. At this time, the APP application and the watch will not be connected.

2. After downloading the APP, click on the APP icon to start the APP application function will not be used. If you turn on the phone, the push function can be used normally.

3. After installing the APP software on Android phones, you need to open the background application startup permission in the phone settings. Different models of phones will have differences.

1. APP application and watch connection method.

1. After the download APP and select "Find" or "Third Party Login" (as shown in Figure 1).

2. After logging in successfully, click "Select Watch" (as shown in Figure 2) to enter the "Add Device" interface, and click on the Bluetooth name of the device you purchased (as shown in Figure 3) to connect successfully.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
