Federal Communications Commission
Authorization and Evaluation Division

Regarding the FCC ID label location of AMWUT653 (Atlantis 150), we need to place the label in battery compartment to avoid exposure to environment such as sea water. The ID on the outer case can be worn and unreadable over the time.

The FCC ID will be readily viewable by removing the battery cover. At the time of the purchase, the FCC ID will be readily viewable since battery cover and battery are detached from radio body and are separately packed.

Sincerely,

A handwritten signature in black ink, appearing to read "Renji Inuzuka".

Renji Inuzuka
