Brief Introduction

ZHIYUN MOLUS B100/B200 is a high-power, high-illumination, portable fill light that supports brightness/color temperature adjustment functions. It is small in size but performs excellently, with an integrated design that is easy to operate and efficient. It comes with an industry-standard Bowens mount, has excellent accessory compatibility, and meets the lighting needs of video recording, live interviews, still photography, and other shooting scenarios. The product has the following features:

1. Lightweight, portable, simple and easy to operate, with excellent performance.
2. Easy adjustment of brightness/color temperature, suitable for a wide range of applications.
3. High-power, high-illumination for large spaces and scenes in low-light environments.
4. High color rendering performance, accurately restoring object colors.
5. Supports Bluetooth mesh networking and remote dimming through an app, improving lighting efficiency and convenience.
6. Comes with built-in lighting effects for more creative shooting.
7. Comes with standard Bowens mount, compatible with various light control accessories.
8. Display screen for clear and convenient parameter settings.
9. Built with DynaVort™ Cooling System to excellently dissipate heat.
10. Features a reliable bracket with disc-brake design that can adjust direction and can be installed on a light stand or used with an umbrella.

WARNING

-  This product is not waterproof. Prevent contact with any kind of liquid with the ZHIYUN MOLUS B100/B200. Never use the product in the rain or a humid environment.
-  If water accidentally enters the device when using, please stop using it immediately and contact the company or authorized maintenance personnel for maintenance, and continue to use it only when the maintenance is finished.
-  Do not expose this product to corrosive chemicals, inflammable and explosive materials.

- ⚠ Do not touch the heating part when the product is working to avoid getting burned.
- ⚠ Before using this product, please connect it to a grounded outlet.
- ⚠ Do not wrap or block the fans to avoid cooling effect damage.
- ⚠ Do not turn the product directly to the eyes to avoid eyesight damage.
- ⚠ Do not expose this product to an environment above 40°C .

BE CAREFUL

1. This product is a high-precision control device. Damage may be caused to the product if dropped or subject to external force, and this may result in malfunction.
2. Please keep your hands dry while using the product and use soft dry cloth for cleaning.
3. Keep this product out of the reach of children.
4. When not using this product, please disconnect the external power supply.
5. Do not place any other items on top of this product to avoid damage to this product.
6. Protect the product from dust and sand during use.
7. Before storing this product, please make sure it is completely cooled and store it in a dry and ventilated place.
8. Do not disassemble this product on your own. In the event of malfunctions, it should be repaired by ZHIYUN or authorized maintenance personnel.

Product List

Before using this product, please check carefully that all the following items are included in the product package. In case that any item is found missing, please contact ZHIYUN or your local selling agent.

ZHIYUN MOLUS B100/B200 COB Light

Reflector x1

AC Power Cable x1

COB Chip Cap x1

Quick Start Guide x1

Get to Know ZHIYUN MOLUS B100/B200

Power Supply

This product does not contain batteries. To ensure normal operation, please follow these steps: Use the provided AC power cable to connect the ZHIYUN MOLUS B100/B200 to the AC power outlet to supply power to the B100/B200.

Installing/Detaching the Reflector

ZHIYUN MOLUS B100/B200 is compatible with standard Bowens mount accessories, and in this case, we will use the standard reflector (Bowens mount) as an example for installation.

Installing:

Align the mount of the standard reflector with the accessory mount of the MOLUS B100/B200, and install the standard reflector onto the light body ①. Press the standard reflector slightly into the mount of the light body, and rotate the standard reflector clockwise until it is locked in place and cannot be rotated ②, which means the installation is completed.

Detaching:

Pull the Bowens mount lock switch backward and do not release ①. Rotate the standard reflector counterclockwise ②, and then remove the standard reflector from the light body ③ to complete the disassembly.

Installing a Light Stand

Align the end of the bracket with the 1/4 screw at the top of the light stand ① . Then, install the B100/B200 onto the light stand and tighten the bracket latch ② . Loosen the bracket hinge latch ③ and adjust the angle of the light body as you wish ④ . Finally, tighten the bracket hinge latch ⑤ .

💡 Light stand is not provided in the product package.

Installing/Detaching the Umbrella

Insert the handle of the umbrella into the umbrella hole on the bracket, and then tighten the umbrella lock clockwise. To detach the umbrella, rotate the umbrella lock counterclockwise and pull out the handle of the umbrella.

💡 Umbrella is not provided in the product package.

⚠ Staring at the glowing chip of the MOLUS B100/B200 during operation is strictly prohibited.

⚠ The protection level of the MOLUS B100/B200 outer case is IP20.

- 💡 ① During the use of the MOLUS B100/B200 when the temperature rises to a certain degree, the fan will automatically turn on to achieve the purpose of heat dissipation for the light.
- ② When the temperature is too high, the high-temperature protection mechanism of MOLUS B100/B200 will be activated to ensure the safe use of the light.
- ③ If the high-temperature protection mechanism is triggered, ZHIYUN MOLUS B100/B200 will automatically turn off. Once the temperature decreases, the light will automatically turn on again. During this period, please do not place the light on a wooden table or any other flammable surface.

Buttons and Dials

Power Switch:

Left press/right press: Power on/off

DIM Dial:

Single press: Quickly adjust the parameter. (CCT/FX).

Confirm (MENU).

Triple press: Reset Bluetooth.

Turn: Adjust the parameter.

Long press: Enter/exit the menu.

CCT Dial:

Single press: Quickly adjust the parameter. (CCT)

Turn: Adjust the parameter. (CCT)

Switch options. (FX/MENU)

Long press: Enter/exit FX mode.

Operation Instructions

1. CCT Mode Settings

In the CCT mode interface, single press/turn the DIM dial to adjust the brightness.

Single press/turn the CCT dial to adjust the color temperature.

Brightness adjustment range: 0-100%

Color temperature adjustment range: 2700K-6500K

2. FX Mode Settings

Long press CCT dial to enter FX mode. Turn the CCT dial to switch to FX/ Brightness/Speed/Color temperature option. Single press/turn the DIM dial to adjust the chosen option.

FX types: SOS, Paparazzi, Flame, Faulty Bulb, TV, Lightning, Explosion, Welding, Flashlight, Color Temperature Loop, Color Temperature Flash, Color Temperature Pulse, Fireworks

 The parameter values in a single light effect are only effective for that light effect.

3. MENU Settings

Long press DIM dial to enter MENU interface. Turn the CCT dial to switch to language/Bluetooth reset option. Turn the DIM dial to adjust the chosen option.

MENU	
Language:	English
BT Rst:	No
Firmware:	V1.76

 Single press DIM dial to confirm. Under the "MENU" option, you can also check the firmware version information for the ZHIYUN MOLUS B100/B200.

Power-On Settings

Normal mode: Before connecting ZHIYUN MOLUS B100/B200 to the AC power, the power switch is at the "O" side. When connected to power, you need to put the switch to the "—" side to power on the light.

Live mode: Before connecting ZHIYUN MOLUS B100/B200 to the AC power, the power switch is at the "—" side. The light will be automatically powered on when connected to power.

You can use “Zhiyun Led Tools” or “ZY Vega” to perform the ZHIYUN MOLUS B100/B200 firmware upgrade.

Method 1:

1. Visit the official website of ZHIYUN (www.zhiyun-tech.com), go to the ZHIYUN MOLUS B100/B200 product page, click "Download", find the Zhiyun Led Tools and the firmware and download.
2. Unzip the firmware for the files with the ".ptz" file extension.
3. Connect the USB-C port of ZHIYUN MOLUS B100/B200 to the USB port of the computer with the USB Type-C cable.
4. Open "Zhiyun Led Tools", click "Open", and click "Firmware Upgrade". Click "Browse" under "Path" to select the latest firmware downloaded (with the ".ptz" file extension), and click "Upgrade" at the bottom to upgrade firmware. ZHIYUN MOLUS B100/B200 will automatically turn off when the upgrade is finished.

Method 2:

The firmware of the ZHIYUN MOLUS B100/B200 can be upgraded using the "ZY Vega" app. For more detailed instructions, please visit the ZHIYUN official website at www.zhiyun-tech.com and watch the related video tutorials for the ZHIYUN MOLUS B100/B200.

- ① When using Method 1 for the upgrade, please wait until the screen displays that the upgrade is finished, then you can plug out the USB Type-C cable.
- ② Before upgrading the firmware, please ensure that the ZHIYUN MOLUS B100/B200 has more than 50% power remaining. You can not exit the app interface or access in the background during the upgrading process. Pay attention to the prompts on the app.

Reading Tips

Legends:  Hints and Tips

 Important

Safe Operation Instructions

Read the ENTIRE User Guide to become familiar with the features of this product before operating. Failure to operate the product correctly can result in damage to the product or personal property and cause serious injury. This is a sophisticated product. It must be operated with caution and common sense and requires some basic mechanical ability. Failure to operate this product in a safe and responsible manner could result in injury or damage to the product or other property. This product is not intended for use by children without direct adult supervision.

DO NOT use with incompatible components or in any way otherwise as mentioned or instructed in the product documents provided by ZHIYUN. The safety guidelines herein contain instructions for safety, operation and maintenance. It is essential to read and follow all of the instructions and warnings in the User Guide, prior to assembly, setup or use, in order to operate the product correctly and avoid damage or serious injury.

Warranty Period

1. Customers are entitled to replacement or free repair service in case of quality deficits found in the product within 15 days upon receipt of the product.
2. Customers are entitled to free repair service from ZHIYUN for any product proven defective in material or workmanship that results in product failure during normal consumer usage and conditions within the valid warranty period, which is 12 months counting from the date of selling. However, warranty period varies by product component and country of purchase. Please contact our after-sales service team on ZHIYUN official website or your place of purchase for detailed warranty information.

Warranty Exclusions

1. Products subjected to unauthorized repair, misuse, collision, neglect, mishandling, soaking, accident, and unauthorized alteration.
2. Products subjected to improper use or whose labels or security tags have been torn off or altered.
3. Products whose warranty has expired.
4. Products damaged due to force majeure, such as fire, flood, lightning, etc.

Warranty Claim Procedure

1. If failure or any problem occurs to your product after purchase, please contact a local agent for assistance, or you can always contact ZHIYUN's customer service through email at info@zhiyun-tech.com or website at www.zhiyun-tech.com.
2. Your local agent or ZHIYUN's customer service will guide you through the whole service procedure regarding any product issue or problem you have encountered. ZHIYUN reserves the right to reexamine damaged or returned products.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Hereby, [Guilin Zhishen Information Technology Co., Ltd.] declares that the radio equipment type [PLB104] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://www.zhiyun-tech.com/compliances>.

- English:

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and

(2) this device must accept any interference, including interference that may cause undesired operation of the device."

- French:"

Le pr é sent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autoris é e aux deux conditions suivantes :

(1) l'appareil n' doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radio é lectrique subi, m ê me si le brouillage est susceptible d'en compromettre le fonctionnement."

IC Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

D é clarat ion d' ex position au rayonnement IC:
