

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. A black plastic housing is open, revealing a blue cylindrical battery and a small black electronic component. A black ruler with white markings is placed vertically to the left of the housing for scale. The background is a light blue textured surface.
EUT Housing and Board View 2	 A photograph showing the internal components of the EUT housing from a different angle. The black plastic housing is open, revealing a printed circuit board (PCB) with various electronic components and a blue cylindrical battery. A black ruler with white markings is placed vertically to the left of the housing for scale. The background is a light blue textured surface.

Solder Board-Component View 1	 A photograph of a small, rectangular electronic component (likely a microcontroller or sensor) mounted on a blue printed circuit board (PCB). The component is positioned near a black L-shaped ruler. The ruler has white markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is located approximately at the 20 mm mark on the horizontal axis and the 20 mm mark on the vertical axis.
Solder Board-Component View 2	 A photograph of the same electronic component from a different angle, showing its top surface. The component is mounted on a blue PCB. A black L-shaped ruler is visible, with white markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is located approximately at the 20 mm mark on the horizontal axis and the 20 mm mark on the vertical axis.

Solder Board-Component View 3	 A photograph of a small, rectangular electronic component (likely a microcontroller or sensor module) mounted on a blue textured surface. The component is positioned next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters. The component is oriented horizontally, with its longer side parallel to the ruler's horizontal edge. The component's surface is dark with various components and markings, including a small white label with the text "MT-044-01 U2.2" and "2023.06.11".
Solder Board-Component View 4	 A photograph of the same electronic component from a different angle (View 4). The component is still on the blue textured surface next to the black L-shaped ruler. In this view, the component is oriented vertically, with its longer side parallel to the ruler's vertical edge. The component's surface shows various components and markings, including a small white label with the text "MT-044-01 U2.2" and "2023.06.11".
