Battery

F109 is included an internal battery.

You can track your battery status with the icon showed on the top right of the screen. As microwave ovens, stoves, or radiators, batteries may explode when overheated.

- Use only F109 approved batteries specifically designed for your phone. Incompatible batteries can cause serious injuries or damage to your phone.
- Never place batteries or phones on or in heating F109, such as microwave ovens, stoves, or radiators. Batteries may explode when overheated.
- Turn your F109 off and do not remove its battery or charge the battery when in an area with a potentially explosive atmosphere. Sparks in such areas could cause an explosion or fire resulting in property damage, bodily injury or even death. Do not use the F109 near at a refueling point (service station) or near fuels or chemicals.
- Keep your F109 away from moisture. If water or other liquids get into F109, it will cause F109 overheating, leakage of electricity and malfunction.

Warning

The rechargeable batteries contain toxic heavy metals like mercury, cadmium, and lead. Improperly disposed batteries will cause heavy metal contamination. These batteries when discarded in ordinary household or workplace, after a long time, the heavy metal will leach slowly into the soil, ground water and surface water. Therefore, please dispose of used battery in a proper way.

- Do not land filled, because the heavy metal will leach slowly into the soil, ground water and surface water.
- Do not incinerate, because the heavy metals can enter the air through smokestack emissions and can concentrate in the ash produced by combustion.
- Do not compost, because the heavy metals in the compost may exceed standards.
- Do not throw away used batteries random, avoiding environmental pollution.
- Separate wasted batteries from household trash, reducing its harm to the environment.

Basic parameters

Smart Phone

Operating Temperature: -10° C to 40° C.

This F109 complies with part 15 of the FCC rules. Operation is subject to the following two conditions: This F109 may not cause harmful interference, and this F109 must accept any interference received, including interference that may cause undesired operation.

This F109 has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connecting the equipment to a socket on a circuit different from that to which the receiver is connected.
- Contact with the provider or a radio / TV technician for help. an approved antenna.

Pecific absorption rate (SAR):

This mobile phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a margin of safety designed to ensure the safety of all people regardless of their age or health.

This F109 was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 0mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this F106 Pro should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Note: Do not use the mobile phone if it has a damaged antenna, as it may cause injury to persons.

In addition

- Use careful with the earphone maybe possible excessive sound pressure from earphones and headphones can cause hearing loss.
- CAUTION : Risk of explosion if battery is replaced by an incorrect type.
- The product shall only be connected to a USB interface of version QC 3.0
- Adapter shall be installed near the equipment and shall be easily accessible.
- The plug considered as disconnect F109 of adapter.
- The F109 complies with RF specifications when the device used at 0mm from your body.

Care and maintenance

Your F109 is a product of superior design and craftsmanship and should be treated with care. By following the warranty obligations and by caring for your mobile, you can enjoy it for many years:

- (1) Keep the F109 dry. Precipitation, humidity and liquids containing minerals will corrode the electronic circuits;
- (2) Do not use or store the F109 in dusty areas as the dust could obstruct or damage the moveable parts;
- (3) Do not store the F109 in hot areas. High temperatures can shorten the life of electronic F109 , damage batteries and warp or melt certain plastics;
- (4) Do not store the F109 in cold areas, because moisture can form inside the F109 when temperature rises, which may damage the electronic circuits;
- (5) Use only approved batteries and accessories. Use of any unauthenticated batteries and accessories could damage your F106 Pro and may be dangerous;
- (6) If there's something wrong with your F109 or its accessories, do not attempt to dismantle the F109 . Contact qualified service personnel to repair your F109.

Warranty Card

Purchasing Date	
Please fill in all of the above items.	

This product comes with a 24-month warranty from the date of purchase

- If there is a quality problem within the scope of normal use, we provide warranty.
- After purchasing our company's products, please keep this product together with invoices and other items, and please provide information according to our company's reliance request when maintenance services are required.
- Warranty service may not be provided if the warranty card is damaged, altered, etc.,
And it is considered to be incorrect, or if the warranty card is not stamped by the store where it was sold.
- Damage caused by use beyond the normal use range is not covered by the warranty service.
- The content of the warranty scope is subject to the content recognized by the company.
- Even within the scope of the warranty, there are times when an equivalent product can be exchanged. Shipping and maintenance costs for products not covered by the warranty shall be borne by the customer.
- Product specifications and features are sometimes changed without prior notice.
- Please refer to our updated guideline on our website below.

Manufacturer: Shenzhen Qichang Intelligent Technology Co., Ltd.

Address: Room 510, 5th Floor, Building 7, Yunli Smart Park, No.7 Changfa Middle Road, Yangmei Community, Bantian Street, Longgang District, Shenzhen,CN

CE Warning

- 1.Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.
- 2.Adapter shall be installed near the equipment and shall be easily accessible.
- 3.The operating temperature of the EUT can't exceed 25℃ and shouldn't be lower than 0℃ .
- 4.The plug considered as disconnect device of adapter.
- 5.The device complies with RF specifications when the device used at 20cm from your body.
- 6.The product shall be connected to a Type C interface/ USB interface of version USB2.0 or higher.
- 7.The band 5150-5350MHz indoor use only.

Hereby, **Shenzhen Qichang Intelligent Technology Co., Ltd** declares that this product is in compliance with essential requirements and other relevant provisions of Directive 2014/53/EU. This product is allowed to be used in all EU member states.

FCC Warning

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device was tested for typical body-worn operations with the back of the device kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a appropriate separation distance between the user's body and the back of the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. Use only the supplied or an approved antenna
