ICON	ITEM & FUNCTION
Taskbar and Start Menu	• “General” Tab :
	✓ In this tab, You can change the position of the Taskbar and Start menu ➤ Is always on top or not ➤ Auto hide or not ➤ Show Clock or not
	• “Advanced ” Tab:
	✓ Tap the “Clear” button to remove the contents of the Documents Menu. ✓ Enable “ ☐ Expand Control Panel ” to list all icons of Control Panel from top to bottom.

Chapter 4

Communication

4.1 Installing & Setting Up Microsoft ActiveSync

4.1.1 Installing Microsoft ActiveSync on the Host PC

Microsoft ActiveSync is a file transfer tool to synchronize the files on a PC with the files on your PDA.

To install Microsoft ActiveSync, complete the following steps on the PC:

1. Go to the Microsoft Windows CE.NET website and download the most current version of ActiveSync:

<http://www.microsoft.com/mobile/pockeypc/downloads/>.

2. Install the most version of Microsoft ActiveSync on the host PC.
3. Open ActiveSync.
4. Select **File > Communication Settings** from ActiveSync's menu bar.
5. Go to "**Using ActiveSync**" on page X.X to continue using ActiveSync.

4.1.2 Connecting PDA to Host PC

1. You can use either the USB/Serial(RS232) port of Single Dock or a USB/Serial(RS232) cable to connect the PDA to the Host PC.
 - To use the dock, you must first insert the PDA into the slot, making sure that the unit is firmly seated the dock.
 - To use the cable, connect the USB/Serial cable to the PDA.
2. Connect the USB/Serial dock or cable to the Host PC's serial port or USB port.
3. Connect the dock or PDA to the power adapter and power source.

4.2 Using ActiveSync

Use ActiveSync to transfer and synchronize files between the PDA and the Host PC.

4.2.1 Setting up a Partnership

During the Microsoft ActiveSync installation, you were prompted to create a

partnership with your mobile device. When you set up a partnership, you select synchronization and file conversation settings, which are contained in a file on your desktop computer. This file enables your desktop computer to recognize your device. Only devices that have a partnership with a desktop computer can synchronize information between the two computers.

For more information on partnerships, please refer to your Microsoft ActiveSync documentation or help file.

Transferring Files:

To transfer files, complete the following steps on the host PC:

- ✓ Select **Start > Programs > Communication > (IrDA, Serial, or USB) ActiveSync**.
- ✓ Double-click on the selected **ActiveSync** icon
- ✓ After you have established a connection with PDA, tap the “**Explore**” button at the top of the **ActiveSync** window (or select **Explore** from the File menu).
- ✓ Navigate to the target directory on your PDA and copy the desired file by using the **Copy/paste** method or dragging and dropping the desired file(s) into the folder.

4.2.2 ActiveSync File Synchronization

ActiveSync files synchronization requires an ActiveSync partnership between the PDA and the Host PC. Refer to “Setting up a Partnership”, above:

- ✓ Select the files in the synchronization configuration for the PDA partnership.
- ✓ Select **Tools > Options** from the ActiveSync command bar to configure the synchronization options.
- ✓ Place the file to be synchronized in the **Synchronization** folder created you’re **My Documents** directory. Defaults to the desktop. During the ActiveSync connection, all files in the **Synchronization** folder will be synchronized to the **\My Documents** directory on the PDA.

4.2 Networking

Please see the **3.2.17 Owner, Table 3-16 Owner** on page 3-50 for **setting up the network ID**. And see the **2.5.6 Initiating a Network Connection** to setup the 802.11b Wireless LAN for RF connecting.
