

Bluetooth Speaker/Remote Shutter

INCLUDED:

- 1) Bluetooth Speaker/Remote Shutter
- 2) Instruction Manual
- 3) Micro-USB – USB cable
- 4) Carrying Strap

TECHNICAL DETAILS

Input:	DC 5V / 500mA
Output:	2W
Frequency:	120HZ-18KHZ
Impedance:	4Ω
Speaker Driver size:	23mm
Product Dimensions:	28x28x32mm

HOW TO USE

1. Connecting A Media Device:

- Press and hold the power button for approx. 4 seconds.
- The blue LED Indicator will flash to indicate Bluetooth pairing mode.
- Select “Timbre” on your media device.

2. Power Button Function:

- Audio volume and selection can be made using your media device.
- Single press the power button to play and pause audio.

A: When receiving an incoming call:

- Single press the power button to answer an incoming call.
- * Use the mic - located on the speaker base during a call.

B: To Activate Camera Mode:

- Press and hold the power button for 2 seconds. A tone will sound to indicate that the Timbre is in Camera Mode. Press and hold for 2 seconds to return to Audio Mode.

C: Using the Locate Function:

- The Timbre will automatically enter the location mode when the connected media device range increases to over 5 meters from the speaker. An alarm will activate on the speaker to indicate that the connectivity distance has exceeded 5 meters.

WARNINGS:

Charge and operate only as indicated in this manual as improper use may result in damage to the product or injury.

- Do not exceed the volume of the speaker as it may damage the device.
- To avoid risk of shock or injury, do not disassemble the device.
- Do not insert any objects into the speaker/mic.
- Keep out of reach of children.
- Do not pull the speaker and cable with force or overextend the cable reach.
- Avoid exposure to moisture, liquids, heat or flame.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

In order to comply with RF exposure requirements, a minimum distance of 5mm must be maintained between the antenna and all persons
