WIRELESS CHARGER

With Built-in Stand

Included Items:

- 1x Wireless Charger
- 1x Micro USB Cable
- 1x User Manual

Instructions:

- Using the included USB micro cable, connect to a computer or wall charger (sold separately) to enable wireless charging. The LED light will show blue when it's connected successfully.
- Confirm that your device has a built in Qi receiver or insert a Qi wireless receiver before charging.
- Place your Qi enabled device in the center of the charging plate. The LED light will show green when it's charging.

Warnings

- Do not leave the product in a hot location.
- Do not disassemble, modify, repair this product.
- Do not allow water or liquids to come in contact with the product.
- Do not place any metallic items on the surface of the product.
- If a non Qi compatible device is used, charger may overheat

Precautions:

- Disable vibration features while charging to ensure vibration does not move the device and lose charge.
- Multiple Qi enabled devices cannot be charged at the same time.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
