Attention:
Application Examiner

Re: Request for confidentiality

Applicant: Alcohol Monitoring Systems, LLC.

FCC ID: P8M-GPS-600

To whom it may concern,

Permanent Confidentiality

Request is hereby submitted by Alcohol Monitoring Systems, LLC to withhold permanently from public view certain portions of the application for equipment certification for the referenced FCC identifiers. This request of confidentiality is made pursuant to 47 CFR 0457(d) and 0.459 of the FCC rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block Diagrams
- Detailed Operational/Function Description
- Tune up procedure
- Parts list
- Internal photos – This device is not sold or internally accessible to the end user. This is a security device which could be compromised if a user gained knowledge of the internal workings of the device. By publishing internal photos a user with knowledge of electronics would have the ability to deduce insights about the devices operation and thus thwart tracking and communications functions of the device.

Rational for request for confidentiality:

AMS has invested considerable time and material in research and development to produce the referenced product. Disclosure of the permanently confidential portions of the this application to competitor would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology.

Sincerely,

Donald Pruitt
Senior Firmware Engineer
Alcohol Monitoring Systems
