

Sample difference description

Our current product models are as follows:

CAT1 module: A7672SA corresponding

minipcie module: A7672SAminiPCIE

Minipcie products are processed on our common PCIe board through the module patch of A7672SA. Therefore, we guarantee that the performance of the two products is exactly the same.

The front and back views of minipcie product A7672SAminiPCIE are as follows:

The following is the front and back view of product A7672SA:
