

EXHIBIT 2 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the white plastic EUT housing and a green printed circuit board (PCB) with electronic components. The items are placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm.
Solder Board-Component View 1	 A photograph showing a close-up of the green PCB with electronic components, including two large electrolytic capacitors and several integrated circuits. The board is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is rectangular and populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller ICs, resistors, and capacitors. It features a gold-plated connector on the top edge and a USB-A port on the right side. The component is placed on a blue fabric surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 3'. The component is rectangular and populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller ICs, resistors, and capacitors. It features a gold-plated connector on the top edge and a USB-A port on the right side. The component is placed on a blue fabric surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled '4', showing its solder side. The board is rectangular with a gold-plated connector on the left edge. It features a central integrated circuit (IC) and various passive components. A white label on the board reads 'D015720-HCU', 'U12', and '2020/06/12'. The board is placed on a blue background with a black ruler showing millimeter markings (0 to 100 mm) for scale.
Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled '5', showing its solder side. The board is rectangular with a gold-plated connector on the left edge. It features a central integrated circuit (IC) and various passive components. A white label on the board reads '100 25V VCS'. The board is placed on a blue background with a black ruler showing millimeter markings (0 to 100 mm) for scale.
