STATEMENT OF OPERATION

December 30, 2002

To: Federal Communications Commission
Equipment Authorization Branch
Laboratory Division
Office of Engineering and Technology
7435 Oakland Mills Road
Columbia, Maryland 21046

Subject: Intended Duty Cycle

Applicant: Uniden America Corporation
216 John Street, P.O. Box 580
Lake City, South Carolina 29560
James R. Haynes, Vice President, Engineering and Regulatory Affairs

TYPE OF EQUIPMENT: Part 95 Transmitter for GMRS
FCC IDENTIFIER: AMWUT892

To Whom it may concern:

The transmitter, identified as AMWUT892, is a portable hand-held device that is customarily held in the proximity of the head when listening to communications, and is held to the mouth when transmitting. A "Push to Talk" button is depressed continuously when the user is talking into the microphone during the transmit operation.

Therefore, we declare that when the device is used in a normal manner, the operation shall be within the maximum duty cycle of fifty percent. It is my understanding that this is an acceptable usage and percentage for the evaluation of maximum permissible exposure concerns.

Please contact the undersigned if you have any questions or need any further information.

Regards,

A handwritten signature in black ink that reads "James R. Haynes". The signature is stylized with a large, sweeping initial 'J' and 'H'.

James R. Haynes
Vice President, Engineering and Regulatory Affairs
