This image shows the internal components of an HP Pavilion dv6-1000 laptop, laid out on a white surface with a ruler for scale. The components include:

- Mainboard:** A blue printed circuit board (PCB) featuring the AMD Turion X2 processor, ATI Radeon HD 3650 graphics, and various other integrated circuits. It has multiple SATA drives and a DVD burner connected.
- RAM:** Two green DDR2 memory modules are visible, one of which is labeled with a Kingston logo.
- Storage:** Two 3.5-inch SATA hard drives are present, one labeled with a Western Digital logo.
- Optical Drive:** A DVD burner is connected to the mainboard via a SATA-to-IDE adapter.
- Wireless LAN:** A small white wireless LAN card is shown separately.
- Heat Sink:** A large copper heat sink with multiple aluminum fins is shown, designed to cool the processor and graphics card.
- Display Assembly:** The laptop's display panel is shown at the top, with its bezel and internal wiring.
- Keyboard and Trackpad:** The keyboard and trackpad assembly is shown at the bottom, with the keyboard keys removed.
