Columbia, Maryland 21046

FCC ID: **CKLPIC1900** CONF. NUMBER: **EA95686**

Subject: Add attachments

To whom it may concern,

The following attached files are being uploaded once again because the above mentioned application had been dismissed but has now been set aside by Richard Fabina. You may contact Mr. Fabina if there are any concerns regarding this matter.

I would like to request that only the files, which have been submitted on this date forward, be considered for review to complete the certification process. This is an effort to try to eliminate any further confusion. I would also like to suggest that Mr. Dichoso please contact me by phone so that we can discuss the most efficient method for discarding the previously submitted attachments so that this process will not jeopardize a timely turnaround and completion my clients' request for Certification. Previously, a correspondence was sent out requesting more information, my hope are that you will review the new attachment files and find that all the information is present for your consideration and authorization for the Grantee Certification for this PCS Base Station.

If there are any problems or additional information required, please do not hesitate to contact me at (408)747-1490 or by email at: chip@eclabs.com

Regards,

A handwritten signature in blue ink, appearing to read 'Chip'.

Chip Matheny
Chief Technical Officer

Remember, Always Design with Compliance in Mind...
