The Major change filed under this application is (This product has updated the PA chip suppliers for LTE frequency bands 25 and 66, as well as 5G NR N25 and 66, on the basis of the original product, but uses the same parameters as before. The remaining frequency bands have not been changed, and the PA chips for each frequency band are separate and have electronic switching switches. So other frequency bands are not affected by this change.)

Yours Sincerely,
