Brief Introduction and Download of Tuya APP

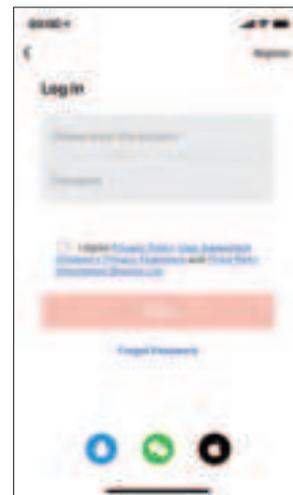

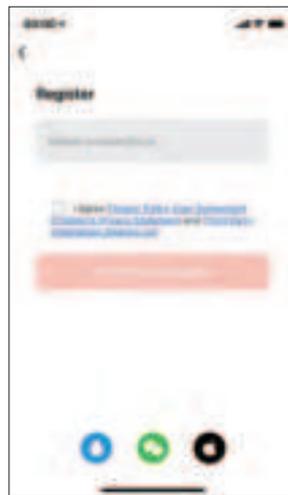

*Tuya Smart APP is the smart device management APP provided by Tuya to end consumers, through which you can conveniently configure and control your purchased whole-house intellectual products, configure your favorite scenarios and automation programs, share your smart devices with your family and friends, and enjoy the fun of a smart home.

Download APP: Search "Tuya Smart" in mobile application market or "App Store" or scan the following QR code to download.

This document takes Smart Life APP as an example and explains Tuya APP & Door Lock Panel Function in detail.

1.Registratoin and Login

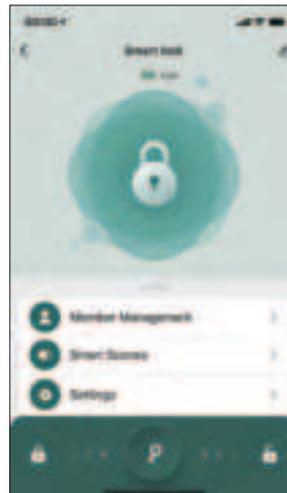

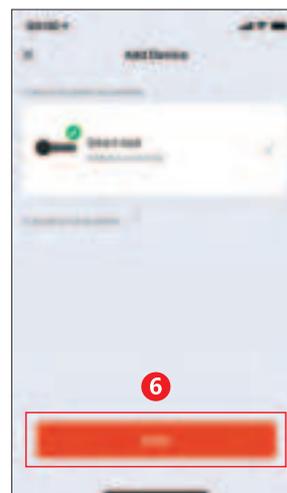

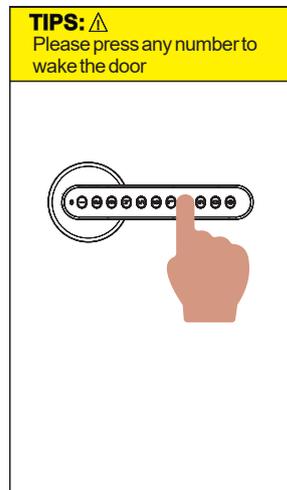

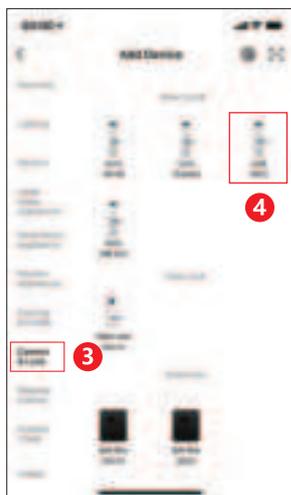

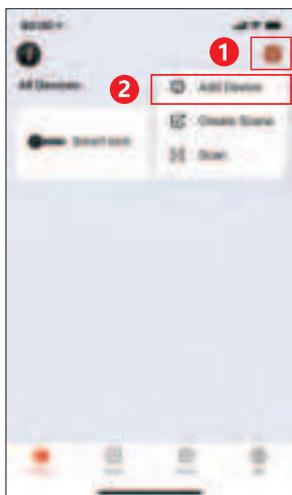

APP Registration: If you don't have an APP account, you can either register an account or log in via SMS authentication code.

Click "Create a New Account" to enter the account registration page. Follow the instructions to get the SMS authentication code and set the password.

If you already have an account, you can click "Login with Existing Account", which supports password, authentication code or social account login.

II. Append Bluetooth Door Lock (Bluetooth on cell phone must be on)

1. Click the "Add Device" icon on the APP homepage.
2. Press the digital keyboard to wake up the device. Wait for the mobile phone to scan the device and click "Next" to complete the device added.

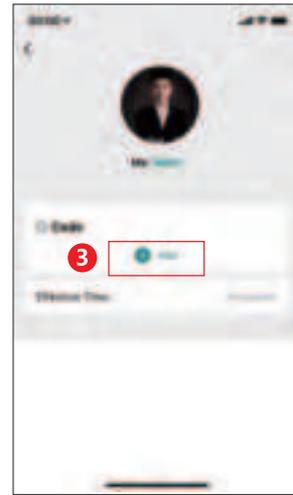

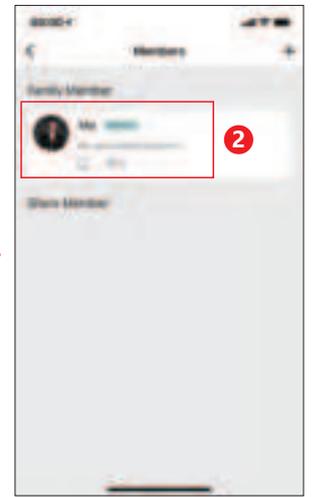

III. Bluetooth Door Lock Panel- Home Page

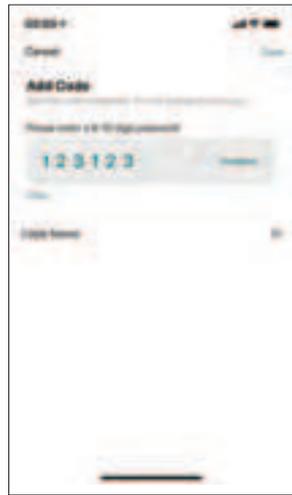

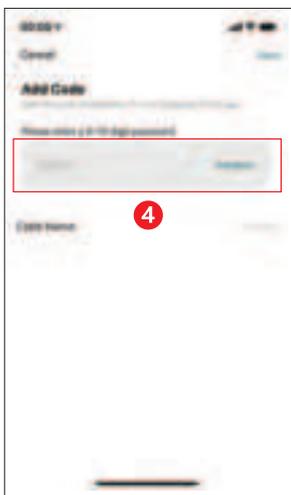

1. The lower side of the homepage contains, "opening records and equipment alerts", "temporary password", "member management", "intelligent application", "setting", the display door lock name and current power condition on the upper side of the homepage.
2. In the center of the homepage, the connection status of the Bluetooth will be displayed. If it is connected, you can unlock the right → slide "and turn on the door lock directly. Slide "Guan Lock" to the left. (Please make sure that the mobile phone Bluetooth has been opened, and the mobile phone and the door lock are recommended within 5-10 meters within a reasonable distance.) If the Bluetooth is not connected, it shows "cannot connect to Bluetooth" and cannot open the Bluetooth door lock directly through the APP. Essence

IV. Administrator password management

15

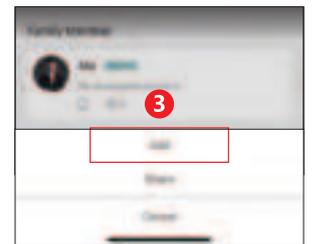

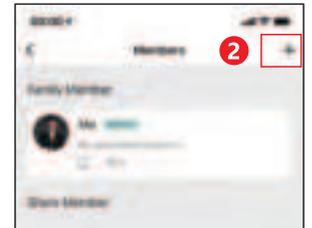

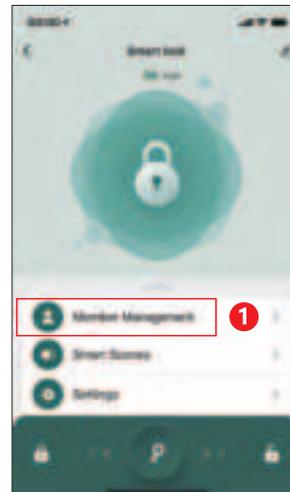

16

1. Homepage "Member Management" Entrance → Select "Family Member Account" with corresponding permissions: The affiliate administrator will have administrators permissions, and ordinary members are just ordinary user permissions;

2. Click "Password Add" to enter 6-10-digit passwords;

V. Member Management - Adding Administrators

17

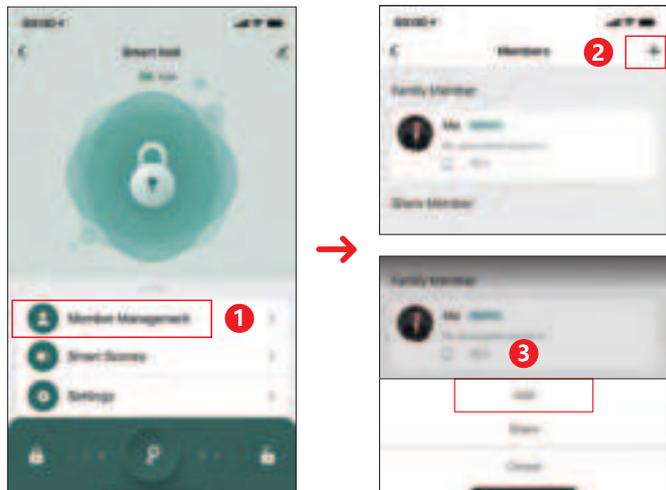

18
