

# Wireless Charging Station

## Instruction Manual

### Package Contents

- 1. ☒ Charging station base
- 2. ☒ 5 Clear plastic dividers
- 3. ☒ 1 AC power cable
- 4. ☒ Instruction manual

### Specifications

Model Number	YM-UD09
Color	Black
Input	100-240V AC 50-60Hz
Output	45W, 5V DC 9000mA (max)
Dimension	195 x 123 x 35 mm
Weight	350 g
Cable Length	5 feet

### Installation

First install the four clear plastic dividers on the charging base. Notice that each divider has a center slot at the bottom with a cut like a “U” shape.

Flip the divider and match its slots with the slots on the base. Then gently press it into the base until you hear or feel a click.

### Light on/off Switch

Notice there is a button to the side of the charging station for you to switch the light on and off. When you connect the AC power cable to the outlet and push the button inward, you should see a blue light turns on. And during bedtime, you may also use this soft blue light as a night-light if you wish.

### Cleaning Instruction

If you have a lot of dust in your room, some of the dust might get trapped on the black surface of the charging station. You may use a dry or damp cloth to wipe it off. If you use a damp cloth, make sure to unplug the cable from the power outlet before cleaning, and dry it up before plugging the power back.

#### FCC Statement

This device complies with part 15 of the FCC Rules. Operation is Subject To the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not explicitly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Note: this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
