

Justification for Re-use of radio test results

We, **BradfordWhite Corporation**, believe the original test reports provided by **ESPRESSIF SYSTEMS (SHANGHAI) CO., LTD.** can be reused in conducted signal test for the following reasons:

1. The radio module built in according to the specific radio module integration guides.
2. We did not modify either hardware or software provided by the module manufacturer.
3. The spot checking emissions from the device while operating the host as a composite system have been done with compliant results.
